EDUCATION

Parul University	2022 - 2025
B.Tech. Lateral - CSE - PIET CGPA: 7.36 / 10	
Government Polytechnic, Ahmedabad	2022
Diploma Diploma - Bio Medical engineering GTU CGPA: 7.54 / 10	
Kendriya Vidyalaya Air Force Station Samana, Jamnagar	2019
10 th CBSE Percentage: 62 / 100	

PROJECTS

Personal PortFolio	01 Oct, 2024 - 01 Dec, 2024
Mentor: Self Learning Team Size: 1	
Key Skills: React.jsJavascriptVercelGithubPostmanNpmHTMLCSS	
Project Link: https://github.com/196170303023/KrishPortfolio	
I've created a modern and responsive portfolio using React, JavaScript, HTML, and CSS to showcase my professional journey. It includes sections where I've shared my achievements, technical skills, academic background, and the projects I've worked on, providing a detailed insight into my expertise and growth. I focused on making the design clean and user-friendly with smooth navigation to ensure visitors have a great experience. By hosting it on Vercel, I've ensured fast performance and global accessibility, making it easy for potential employers and collaborators to explore my work.	
Word-masterMind	01 Oct, 2024 - 30 Nov, 2024
Mentor: Self Learning Team Size: 1	
Key Skills: JavascriptYarnHTMLCSSGithub	
Project Link: https://github.com/196170303023/Word-MasterMind	
Word Mastermind is an engaging word-guessing game that challenges players to deduce a hidden target word. Players enter guesses, and the game provides feedback for each letter: letters in the correct position are marked green, while correctly guessed but misplaced letters are highlighted in yellow. Unmatched letters remain unmarked, helping players refine their strategy. All guesses must be valid words, adding an element of linguistic skill. To enhance gameplay, the on-screen keyboard dynamically updates, visually indicating letter statuses—present (green), absent (dark gray), or unknown (light gray).	
CycleEase	01 Jan, 2024 - 01 Sep, 2024
Mentor: Bhagyesh Ma'am Team Size: 4	
Key Skills: JavascriptNode.jsExpress.jsMongoDBMD5NpmDockerPostmanGithubHTMLCSS	
Project Link: https://github.com/196170303023/CycleEase	
CycleEase is a user-friendly period tracking application designed to simplify menstrual health management for women. The app predicts upcoming cycles based on past data, ensuring accurate tracking and preparation. It offers tailored wellness features, including personalized diet plans and health tips, addressing users' mood and pain levels during their cycles. CycleEase emphasizes accessibility with its intuitive interface, making it easy to navigate for users of all age groups. Additionally, it provides detailed analytics, helping users	

understand their unique cycle patterns and make informed health decisions. By blending technology with care, CycleEase supports holistic well-being, empowering women to manage their menstrual health effectively.

ACHIEVEMENTS

- JavaScript Programming Language In-depth With CSS
- The Complete 2024 Web Development Bootcamp
- Comprehensive JavaScript Course: From Beginner to Full Stack Pro

CO-CURRICULAR ACTIVITIES

- Hackathons, Open Source Contributions, Workshops and Seminars, Personal Projects, Certifications and Online Courses

EXTRA CURRICULAR ACTIVITIES

- Networking Events

PERSONAL INTERESTS / HOBBIES

- Playing Football , Basketball and Capturing and Editing Photos
